Japanese anime

Hello! We are Omagari-minami J.H.S. students. Do you know any Japanese anime? There are many anime in Japan such as Doraemon, Poke-mon, and One-piece. Especially, "DRAGON BALL" is very popular in Japan. The main character of this anime is "Goku". He can fly and beat enemies with wave power. It is called "Kamehameha". I practice it hard every day, but I can't.(Just kidding.) Japanese anime is very interesting. Why don't you watch it?
